

## ABOUT THE CONFERENCE

2010 marks the 61st Consecutive Annual Pest Control Conference sponsored by the Oklahoma Pest Control Association. The conference represents a joint effort by industry leaders and educators to provide both technical and management skills necessary to remain up-to-date and competitive during these times of great changes.

In addition to the knowledge and skills gained, much can be said about social benefit and opportunity to meet the Industry suppliers, in an informal personal atmosphere. The free and easy exchange of ideas which continues during the after hours sessions can be as rewarding as the information gained during the formal sessions.

We sincerely hope that your attendance this year will be educational, profitable, and enjoyable. We also sincerely hope that if you are not a member of the OPCA that you will join.

The OPCA wishes to gratefully acknowledge our suppliers. Their continued support of the conference, displays of equipment, chemicals, supplies in general; and attention to our needs during the entire year are sincerely appreciated. We would like to add a special thanks to all those who served so unselfishly on the Program Committee to make the conference a success.
